PROFESSIONAL EXPERIENCE

● Flight Centre Travel Group

SENIOR SOFTWARE ENGINEER, Mar 2021 - Present

In Progress:

- Modernisation of all customer-facing product services & apps under the Digital Platforms banner.
- Leadership within the *Holidays* product team, responsible for architecting & building fullstack top-of-funnel flows for use by all other product teams.
- Mentorship of 2 Junior Engineers, assisting with career trajectory & skills development.

Current Common Stack:

Typescript, React, Fastify, Jest, Turbo, Octopus Deploy, k8s (and many more!)

● Compare the Market Australia

SOFTWARE ENGINEER, Jan 2020 - Mar 2021

Delivered:

- Complete overhaul of main web platforms across 16 product verticals. Lead a small team to convert all legacy front-end stacks to a micro-ui based architecture over 8 months.
- Leadership on several small cross-functional project teams, each for focused 2-week dev cycle platform improvements
- Ongoing full-stack maintenance work over aforementioned product verticals

● Biarri

SOFTWARE ENGINEER, Nov 2018 - Nov 2019

Delivered:

- Distribution Centre optimisation system for Australia's largest consumer services group
- Multi-platform curriculum digitisation & management system for the AEIOU
- Air freight data aggregation + analysis tool for international airlines
- Ground staff rostering tool for global aviation services

● Tiny

ENGINEER, Oct 2015 - Nov 2018

Tiny (*Formerly Ephox*) was a small software company based in Brisbane, responsible for the **TinyMCE** WYSIWYG editor.

Various roles:

- Engineering Intern
- QA Engineer
- Support Engineer
- Junior Software Engineer

EDUCATION

● GRIFFITH UNIVERSITY

BACHELOR OF INFORMATION TECHNOLOGY, 2014 - 2016
